I N I G H T visionary

Thermal night vision cameras make navigation safer with clear video that helps you to see and avoid hazards during daylight hours and, more especially, at night. They can help you to find a person in the water faster than any other night vision technology and are used by Coast Guards, Police Agencies and Search and Rescue teams around the world.

RAYMARINE THERMAL IMAGING CAMERAS

- Safer navigation
- Life-saving potential in man-overboard situations
- Enhanced visibility and situational awareness at night
- Easy docking in low light
- Boat security and surveillance
- Touch screen operation with E Series HybridTouch™
